

## CEASE AND DESIST NOTICE

### A Request to Cease and Desist all acts of Harassment and Discrimination

Requesting that we wear a mask is harassment. Furthermore, asking us to leave your store or refusing to serve us or allow us into your store is Discrimination even if you are legitimately a Private Business on Private Property.

The following points are the FACTS as they stand documenting how it is harassment and discrimination to treat non-mask-wearers differently than mask-wearers.

After reading these points, if you still ask us to leave your store, or refuse to serve us, or refuse to allow us into your store, you will be in violation of Federal Law regarding Discrimination and you and the business you work for may be sued for Discrimination.

1. If this business is a Publicly Registered Company, such as an LLC, INC., LLP, etc. under Title III Reg 28 CFR §36.104 then Federal law 28 CFR §36.202 states that that unless I have been individually assessed as a "direct threat" you may not exclude me from the SAME and EQUAL services as others. Title III, Sections §36.202(a)(b)(c) and §36.203(a)(b)(c) states that I shall not be denied the same PARTICIPATION and EQUAL ACCESS as everyone else. The law prohibits you from serving me separately or differently. Therefore, requesting we wear a mask is harassment and discrimination. <https://www.thehealthyamerican.org/documents>
2. Even if the company exists on Private Property, these premises are a Public Accommodation open to the public and thus any charge of "trespass" is a false accusation as I am complying with all lawful conditions allowing me to remain on these premises. As such, this business is PROHIBITED from unlawful discrimination by denying the entry of any member of the public who is who is not disturbing the peace according to Title II, III and VII of the U.S. Civil Right Act of 1964. To do so is a crime of FALSE IMPRISONMENT, and you will be held personally liable for this crime. <https://www.thehealthyamerican.org/documents>
3. All Governor Mandates, Executive Orders, Etc. are NOT laws and do not need to be enforced against the general public, nor do they need to be followed by any business. They are merely suggestions that are only enforceable against Government Employees and Contractors. Therefore, requesting us to wear a mask is harassment and discrimination. <https://www.washingtontimes.com/news/2020/may/5/executive-orders-are-not-laws/>
4. If the above is not true for this particular State, and there is actually a Law requiring the use of wearing a mask, let it be known that only Police Officers and other certain legal authorities are allowed to enforce the law. The general public is not allowed to enforce the law. Requiring us to wear a mask is therefore the enforcement of the law by a non-police officer or other legal authority, which is legally considered harassment. Therefore, requesting us to wear a mask is harassment and discrimination.

5. Business Policies, like policies of any kind, are only legally enforceable upon those who physically sign an Agreement consenting to those policies. Policies are Contract Terms and Conditions. Contracts cannot be enforced against those who have not signed the contract. Your Business Policies are only legally enforceable against your Employees unless you are a © Member-based business who requires all Customers to sign a Membership Agreement in which the wearing of a mask is a Term and Condition of entering your store. Otherwise, requesting we wear a mask is Harassment, and failure to treat us like any other Customer is Discrimination.
6. U.S. Information and Educational Exchange Act of 1948 was amended in 2012 by the Smith-Mundt Modernization Act of 2012, a law that makes it legal for the News to display Propaganda in the U.S. Since then, the News has used Propaganda to control the common perception of the Mainstream Narrative. All News related to COVID-19 has been nothing but Fear Mongering Propaganda. Your response to it in requesting us to wear a mask is harassment and discrimination.

7. Koch's Postulates have never been enacted and followed through on determining whether or not the pathogen known as SARS-COV-2, COVID-19, even exists, let alone causes the disease it is claimed to cause. The virus has never been properly found to exist within any lifeform and has never been isolated in a laboratory. Forcing us to wear a mask is therefore harassment and discrimination. - <https://frankreport.com/2020/07/03/coronavirus-truths-part-2-kochs-postulates-not-being-used-at-all-for-covid-19-why/>
8. Even if COVID-19 were a real virus causing a real disease, it has a survival rate of 99.999% and cannot, therefore, be said to be a Pandemic, warranting the wearing of a mask, or vaccinations. This percentage of survival rate is evident even with the fudging of numbers by including all those who have died *with* COVID after being tested, even if it was not actually the cause. Therefore, requesting we wear a mask is harassment and discrimination. To learn more, visit <https://worlddoctorsalliance.com/>
9. There isn't a single facemask or dust mask on this planet that perfectly stops dust. As such, no mask on this planet can be said to stop a virus, and therefore slow the spread of the disease. In virology labs, the scientists wear airtight suits that are fed fresh air from outside the room to prevent them from contracting a virus. Therefore, requesting us to wear a mask is harassment and discrimination.

10. A Freedom of Information Act has been pulled on multiple Hospitals in the US and abroad asking how many of their patients died with COVID listed as the cause who did not also have terminal pre-existing conditions. All but one of those hospitals answered “Zero.” The one that did not answer Zero, answered “Four.” Only Four people can really be said to have died from nothing but COVID. Therefore, requesting we wear a mask is harassment and discrimination.
11. A Freedom of Information Act was pulled on the NHS of Great Britain asking if the virus had ever been isolated in a laboratory to prove it exists. The answer came back, “No.” Therefore, the virus cannot be said to exist. Therefore, requesting we wear a mask is

harassment and discrimination. <https://rumble.com/vb55hj-proof-from-the-nhs-covid-does-not-exist.html>

You have been Noticed. If you continue to harass or discriminate against this person, you are making yourself and the business you work for legally liable for a Discrimination Lawsuit.

## **DIRECT THREAT: Legal Definition**

**There is no evidence that I am a direct threat to the health and safety of your business.**

According to Title III of the U.S. Civil Rights Act, § 36.208,

*"In determining whether an individual poses a direct threat to the health and safety of others, a public accommodation must make an individualized assessment, based on reasonable judgement that relies on current medical knowledge or the best available objective evidence."*

**Absent a court-order of quarantine or isolation, there is no medical evidence that I am a threat to the healthy and safety of your business. Innocent until proven guilty in the USA. Therefore, my right to equal access to the goods, services, privileges and facilities of this establishment is guaranteed by Titles II, III and VII of the Civil Rights Act of 1964.**

### **ARREST WARNING:**

**You are hereby notified that state and federal laws make it a crime to deny the Rights of an individual. You can be arrested for this crime and held personally liable for criminal and civil damages, including fines and jail time. That means you can be personally charged and arrested for this crime, regardless of what your manager, governor or health officer says. No law or store policy supersedes the Federal law.**
